RECLAIM YOUR LIFE

A Simple Digital Reset

"Technology should make your life easier—not steal your attention."

1. THE REALITY CHECK

What currently consumes too much of my attention?	
What important things am I putting off?	
What do I wish I had more time for?	

2. REMOVE THE NOISE

- ■ Turn off unnecessary notifications
- ■ Remove distracting apps from my home screen
- ■ Unfollow or mute accounts that don't add value
- ■ Delete one app I don't actually need

My biggest digital distraction: _____

3. CREATE FRICTION

Instead of:	
I will:	
My social media window:	

4. REPLACE THE SCROLL

When I feel the urge to scroll, I'll choose one:

■ Read ■ Exercise ■ Create ■ Learn

■ Work toward a goal ■ Spend time with someone

My go-to replacement: _____

5. MY ONE RULE

"Before opening an app, ask: What am I here to accomplish? Or: What will this change?"

If I don't have a clear answer, I won't open it.

6. MY 7-DAY COMMITMENT

For the next 7 days, I will use technology to:	
instead of:	
What matters most to me right now:	
One thing I'm going to accomplish this week:	

One distraction I'm removing: _____

TECHNOLOGY • PURPOSE • PROGRESS

Technology should serve your life—not consume it.
